

Where can I buy portable solar panels?

Visit us! You can order portable, foldable solar panels at Solar Power Supply. For mobile use for USB devices, motorhome, caravan, boat or other outdoor applications.

What are solar-powered portable power stations?

Solar-powered portable power stations are a growing sector of the power market that keep your batteries full during power outages and off-grid campouts. These days, gas-powered generators aren't the only option for charging on the go.

What are the benefits of solar-powered portable power stations?

Solar-powered portable power stations keep your batteries full during power outages and off-grid campouts. These days, gas-powered generators aren't the only option for charging on the go. Solar-powered generators--also called portable power stations--are a growing sector of the power market.

What is a containerised mobile solar power generator?

It is the first containerised mobile solar power generator that is specially designed for fixed deployment. This system is suitable for both on-grid and off-grid use, and can be redeployed in less than 24 hours without the need for specialist labour.

What is a Mobil-grid solar power generator?

The Mobil-Grid is a plug-and-play PV power generator with a built-in control cell housed within a semi-mobile container. It is the first containerised mobile solar power generator that is specially designed for fixed deployment.

What can a portable power station sustain?

Depending on output, many of these portable power stations can sustain household appliances the way a gas generator would. This often means battery-powered items, whether it's a smartphone, computer, rechargeable lights, or even a powered cooler or fridge.
