

What is the battery capacity of a solar power bank?

6,500 mAh battery capacity (this is actual capacity, unlike other brands that overstate their capacity). Do not leave in a hot car in direct sunlight, the battery may overheat. Handheld Solar Power Bank Available!

Can a solar power bank be recharged?

Recharging your electronic devices is now possible even when in hiking, camping, and other outdoor activities. Compatible with iPhones, SmartPhone, or Android mobile. MAGNETIC LEATHER CASE: A leather wallet with waterproof coating inside gives your solar power bank durability, flexibility, and heat resistance.
