

How much power can a 120 watt solar kit produce?

This 120 watt portable solar kit can produce enough power to run up to 120 wattsof devices,such as a 50 litre fridge,LED lights,a 12 volt fan,and a 12 volt TV. When partnered with a 120 amp/hour deep cycle battery and one of our ultimate powered battery boxes,it is the perfect portable power solution.

What is a 12V 120W solar panel?

Ideally suited for a motorhome or large caravan. This 12v 120w solar panel is powerful enough to keep your battery charged over long periods away without starting the generator or plugging in to an external source. Comes with MC4 connectors so they are easily added to a string and protected from the wet weather.

What do I need to install a solar system?

The Complete Off-Grid Solar Kit EG4 6000XP includes just about everything you will needfor installation. However,you will need your own installation tools and grounding rods/wire,as well as optional components like surge limiters,and breaker panel/s. We also strongly recommend getting a certified solar installer and/or master electrician for professional installation.
