

How do I add EV charging stations?

Add EV Charging Stations Zoom in on the map and click on station markers to review details. Ensure compatibility with your vehicle, then click "Add to Trip" to include it. Repeat the process to add additional charging stops.

Where can I find charging stations?

ChargeFinder is available as an app for iOS and Android. Specific city pages provide a good overview of charging stations in a particular city. Download the app from Apple App Store or Google Play. ChargeFinder will eventually also be available as apps in Apple CarPlay, Android Auto, and Android Automotive.

How do I find out if a charging station is nearby?

To find out if a charging station is nearby, use ChargeFinder's station page which shows relevant information like charging speed, outlet type, price, and location. Additionally, the "Food and Shopping Nearby" feature helps you find points of interest near the charging station.

Which charging stations are compatible with the chargemap pass stations?

Chargemap Pass Stations compatible with the Chargemap Pass Stations compatible with mobile-initiated charging Charging stations compatible with Autocharge Stations compatible with Plug & Charge Sockets and speed of charge Charging capacity Ultra-rapid 200+ kW Very rapid 100-199 kW Rapid 23-99 kW Slow 3-22 kW Plug type

What power level does a destination Charger offer?

Destination chargers usually provide an output of 3 kW to 22 kW. The color shades on the map indicate the power level: light orange for 3-7 kW and darkest orange for 22 kW. The most common are fast chargers, shown in dark blue, which provide 50 kW.
