How do you remove a power steering oil pump hose?

Remove the clip and disconnect the oil reservoir to pump hose No.1. NOTICE: Take care not to spill fluid on the V belt. Disconnect the connector from the power steering oil pressure switch. Using a spanner (27 mm) to hold the pressure port union,remove the union bolt and gasket. Disconnect the connector from the oil pressure switch.

Can You rebuild a power steering pump on a Japanese car?

This is a good project for the average DIYer; rebuilding run-of-the-mill power steering pumps on mainline Japanese cars is not something shops do,because it is time-consuming with few benefits vs. getting a rebuilt pump from a big rebuilder such as Cardone,or a new pump.

Is a 1992 Camry power steering pump re-manufactured?

Too late for my 1992 Camry as the original power steering pump is gone! I am stuck with a re-manufactured as for my year no one offers brand new any longer! Too late for my 1992 Camry as the original power steering pump is gone!

Why would one attempt to rebuild a power steering pump?

So why would one attempt to rebuild the power steering pump? Well,the primary (and really,only) reason is leakage. The seals go after so many thousands of miles,and the pump starts leaking,making an oily mess of everything.

How do you disconnect a power steering oil pressure switch?

Disconnect the connector from the power steering oil pressure switch. Using a spanner (27 mm) to hold the pressure port union, remove the union bolt and gasket. Disconnect the connector from the oil pressure switch.
