

2002 solara clock and power outlet not working

What fuses are in a Toyota Solara?

See other Toyota Solara: Cigar lighter (power outlet) fuses in the Toyota Solara are the fuses #30 (Power outlet) and #38 (Cigarette lighter) in the Instrument panel fuse box. The fuse box is located behind the storage compartment on the instrument panel (driver's side). There are two or three fuse blocks, depending on the version and equipment.

Where is the fuse box located on a Toyota Solara?

The fuse box is located behind the storage compartment on the instrument panel (driver's side). There are two or three fuse blocks, depending on the version and equipment. Fuse box diagrams (location and assignment of electrical fuses) Toyota Solara /Camry Solara (XV20; 1998,1999,2000,2001,2002,2003).

Why is my clock and radio not getting voltage?

The power for the radio, clock and power outlet is controlled by this relay and pass through it. It is the one thing that was common to both of your clock and radio problems. That could be the third line (ECU-ACC) not getting voltage due to the bad relay, along with the clock and the radio, I posted earlier.

However, the 12V power outlet is still not working; the power accessory relay is probably damaged. The power accessory relay controls all the accessory power inside your Corolla. The relay typically is off when the key is off, but when we ...
