Use a voltmeter to check the wiring that goes into the power window motor. The blue wire should always be hot. Inspect the wiring for damage from the motor into the door. ... This article applies to the Toyota Camry (2007 ...

Initially thought the worse of course, that I needed a new motor for the passenger side window. Then I tried the passenger side window switch and the window worked fine. So now, I think that the switch for the passenger side window (on the driver's side) is bad, and I will need to replace the whole switch control module.

Anytime the battery terminal has been disconnected, please initialize the driver's door power window and front passenger's door power window after reconnecting the battery terminal. With ignition switch in the "ON" position, do the following: 1. Push down and hold the driver's door power window switch to completely open the window. 2.

Toyota Solara V6-3.0L: Service type Window Motor / Regulator Assembly - Passenger Side Rear Replacement: Estimate \$989.84: Shop/Dealer Price \$1202.15 - \$1830.98: 2008 Toyota Solara L4-2.4L: Service type Window Motor / Regulator Assembly - Passenger Side Rear Replacement: Estimate \$1670.77: Shop/Dealer Price \$2053.80 - \$3198.76: 2006 Toyota ...

There is no power window relay; the relay is the power main relay. This relay also controls other circuits. It should be located drivers side behind the ashtray. Keep in mind there is both a fuse and a relay box in this area, you want the relay box.

If so, looking at an electrical diagram for an 03 Camry(same gen as the 05-but I don't know how close it is to an 05), the power windows ****do not**** have individual fuses for each window/door, but, being that the diagram does ...

Drivers side window is stuck in the up position. Was working fine that just wouldn't go down one day. Absolutely nothing happens when pressing switch up or down (like motor is not even getting power). Window had been working totally fine before this issue (not running slow, not binding, etc). The 30A Fuse (#13) is good.

The Power Window Regulator Motor Assembly Right Hand (#85710-42070), a crucial component in Toyota's Body Front Door Window Regulator & Hinge system as well as the Body Rear Door Window Regulator & Hinge system, ...
