

## 3276-wh li-ion solar generator power station

Can a 3276 watt power station be used as a solar generator?

Champion's 3276 Wh portable power station is lithium-ion battery-powered meaning no gas and no emissions. Add solar panels to convert it into a clean solar generator. Parallel with another power station or gas inverter for increased power and run time. Plus, link up to 10 expansion batteries to extend your run time.

What is a champion power equipment 3276 Wh lithium portable power station?

The Champion Power Equipment 3276-Wh Lithium Portable Power Station is your compact, feature-packed portable backup battery solution ideal for RVing and camping, tailgating, jobsites, or as an emergency indoor generator during a power outage.

Can a power station be used as a generator?

Turn your power station into a solar generator to provide an endless stream of power for your off-grid lifestyle or event. Enjoy your easy, gas-free battery generator for camping or RVing. Power a portable fridge for up to 132 hours or a coffee maker for up to 5 hours. Tailgating?

How do I connect a power station to a solar generator?

Buy a 201108 Parallel Kit (sold separately) and connect a ParaLINK-capable gas inverter with your power station or stack 2 power stations together and add a 120V 30A RV outlet (TT-30R) and 120V 30A locking outlet (L5-30R). Turn your power station into a solar generator to provide an endless stream of power for your off-grid lifestyle or event.

How much power does a lithium inverter generator use?

The lithium inverter generator outputs 3200 starting watts, 1600 running watts, and 4500 peak watts (0.5 sec.) and still lets you use over 300 watts of DC power. The advanced lithium-ion battery and management system supply lasting, lightweight, fade-free power. Increase your power output two ways!
