

4 led wireless solar power motion sensor light weatherproof

Are solar motion sensor outdoor lights waterproof?

IP64 Waterproof and Durable: Our Solar Motion Sensor Outdoor Lights are both water and heat resistant, perfect even in extreme weather conditions. Energy Efficient - During the day, each solar panel absorbs sunlight and converts it into electricity, providing for illumination all night long.

Are LePro solar motion sensor outdoor lights energy efficient?

Energy Efficient- During the day, each solar panel absorbs sunlight and converts it into electricity, providing for illumination all night long. Even Lighting From 4 Sides - Unlike other competitors, the Lepro Solar Motion Sensor Outdoor Lights illuminate from 4 sides, cover more space, and provide excellent security for your home or business.

How does a motion sensor work?

Motion Sensor Function: Sensitive PIR sensors detect human motion from 16-26 ft. within a 120° angle. Each lamp activates automatically upon motion, then turns off after 30 seconds. IP64 Waterproof and Durable: Our Solar Motion Sensor Outdoor Lights are both water and heat resistant, perfect even in extreme weather conditions.

Does a motion sensor work all night?

Works All Night: 6-8 hours of sunlight exposure provides for 200, 30-second bursts of light, perfect for detecting motion all night long. Reduce your carbon emission and save on electricity. Motion Sensor Function: Sensitive PIR sensors detect human motion from 16-26 ft. within a 120° angle.
