

What types of power supplies does Sola/Hevi-duty offer?

Sola/Hevi-Duty offers a wide variety of power supplies that suit almost any industrial application. Updated approvals and user friendly features make power system design easy. Sola's product line includes one of the broadest ranges of DIN Rail and linear-based power supplies in the marketplace.

Does Sola/Hevi-duty offer ODVA power supplies?

As a member of the Open DeviceNet Vendors Association (ODVA), Sola/Hevi-Duty has designed two power supplies specifically for DeviceNet applications. Sola's SDN DeviceNet™ models meet ODVA specifications for power supplies for either Thin or Thick cable applications.

What features are retained in a Sola/Hevi-duty power supply?

Essential industrial features such as Sag Immunity, Power Factor Correction, and universal voltage input have been retained in this series. As a member of the Open DeviceNet Vendors Association (ODVA), Sola/Hevi-Duty has designed two power supplies specifically for DeviceNet applications.

How do I contact Sola HD technical services?

Contact Technical Services at (800) 377-4384 with any questions. Visit our website at www.sola.com. Inrush current max 100mA. Time & Temp. Dr. -Immune Storage: -25 to +85°C, Operation -10 to +60°C full power; with linear derating to half power from 60 to 70°C (Convection cooling, no forced air required).

Are Sola linears encapsulated?

The Sola 4 and 10 Watt encapsulated linears are available in dual and triple outputs for applications with sensitive electronics and analog circuitry. The rugged enclosed encapsulated package, with screw terminals and DIN Rail clips, make for easy installation and maintenance.
