

Who are AA solar?

AA Solar have been providing Solar power systems since 2000. They're experts in Solar for grid tied and off grid Solar applications in residential, marine and automotive environments.

What services does AA solar offer?

In addition to the installation service, if you have an older system you wish to upgrade or expand, increase your battery storage capacity, upgrade to more efficient and long-lasting Lithium batteries, AA Solar will be happy to advise and provide you with all you need. For more information, contact 09 427 4040 or visit aasolar.co.nz.

Is AA solar a good company?

Seriously, I think AA Solar is the most customer service-focused business we have come across in a long time. Unbeatable service, and competitive prices, staff always very helpful. I recommend them wholeheartedly. Outstanding service when I needed help to configure a solar controller. Great people and great products. They just keep getting better.

What can AA Solar do for You?

The professional staff at AA Solar are able to provide a complete design, supply, and installation service for RVs, caravans, boats, holiday homes, and baches and will soon introduce a battery and solar system 'health check' for recreational vehicles.

How do I contact AA solar?

For more information, contact 09 427 4040 or visit aasolar.co.nz. Find solar panel installation daunting? Check out AA Solar who provide complete design, supply, and installation service.

What is solar energy & how does it work?

Renewable energy sources replenish themselves naturally without being depleted, and solar power systems are direct energy systems that draw their power straight from the sun's energy. RV and caravan owners are now well acquainted with solar energy, and many already enjoy the convenience and independence of having their own energy source on-board.
