

Where is Acciona Energy located?

Acciona Energy, a world leader in renewable energy, is located in Boulder City, Nevada. They celebrate 15 years of operations for their Nevada Solar One Concentrated Solar Plant (CSP) there. The plant generates up to 64 MW per hour, enough to power 12,500 Nevada households on an annual basis, and it removes an estimated 92,000 metric tons of CO2 emissions annually.

What is Nevada Solar One CSP project?

This page provides information on Nevada Solar One CSP project, a concentrating solar power (CSP) project, with data organized by background, participants, and power plant configuration.

Why is Nevada Solar One considered a top plant?

Nevada Solar One is considered a top plant because POWER recognizes it for pushing the limits of solar thermal technology and for being the first of a new generation of concentrating solar projects now being developed around the world.

Does Fort Valley State University have a partnership with Acciona Energy?

Acciona Energy is partnered with Fort Valley State University as stated by Dr. Isaac J. Crumbly, Associate Vice President for Careers and Collaborative Programs and Founder and Director, Cooperative Developmental Energy Program.
