

Does ACWA Power have a partnership with Sungrow renewables?

Solidifying its partnerships with prominent Chinese renewable energy developers, ACWA Power's first agreement with Sungrow Renewables--a subsidiary of its long-term supply chain partner--will see the development of a 132 MW solar photovoltaic (PV) portfolio in Guangdong province.

What makes ACWA Power a leader in China?

• ACWA Power officially enters the Chinese market with over 1GW of renewable energy projects.  
• Collaborations established with leading developers Sungrow Renewables and Mingyang Smart Energy.  
• Projects represent over 1GW of clean energy capacity, advancing ACWA Power's China Strategy.

How much does ACWA Power Invest in China?

The combined investment for the two portfolios (Sungrow and Mingyang) amounts to USD 312 million. These projects are part of an initial batch that will gradually expand to over 1GW capacity, solidifying ACWA Power's operational presence in China's renewable energy sector.

Who owns ACWA Power?

The Public Investment Fund (PIF) holds a substantial 50% stake in the company. PIF increased its stake in ACWA Power from 33.36%, which comes as part of PIF's strategy to support the development of the renewable energy sector within Saudi Arabia and to support the growth of national champions

Why is ACWA Power expanding in China?

ACWA Power's founder and chairman, Mohammad A. Abunayyan. Additionally, ACWA Power is exploring opportunities in offshore wind, renewable desalination and green hydrogen, which it views as integral to the global energy transition, it said. Abunayyan said the company's expansion in China is a natural evolution of its global strategy.

How much is ACWA Power worth?

Formed in 2004 in Riyadh, ACWA Power has evolved over the past 19 years from a small-scale utility to a significant player in the global energy market. A four-fold increase in market value has marked its rapid ascent since it went public with an IPO in 2021, with its current worth standing at an impressive \$50bn.
