

How do I connect a solar panel to a power bank?

*Solar panels need to be connected to the battery bank now, right-click on the solar panels and press connect.

*You can turn on /off powerbank, when off it will have 0 drain after next charge. *A backup generator can be used if it's close to the power bank (walk to: 3 squares in one direction or 2 squares in both directions).

What can you do with a solar power bank?

This is especially great if you have a base camp. Set the solar panel connected to your power bank in a bright sunny area, then go bag a peak, swim in a river, or take an afternoon nap while the sun charges your power bank for you! Then you can use your power bank to charge whatever your heart desires, instead of charging only one item.

Which solar power bank should I buy?

If you like the extra-bright flashlight but want a bigger battery, GoerTek 25000mAh Solar Power Bank is almost identical in looks, but includes even more LEDs and over 3x the power. The BESWILL 8000mAh Solar Charger is the perfect option for a day when you're running around the city or on a short camping trip.

What is a portable power bank with solar plug outlet?

This portable power bank with solar plug outlet is suitable for home use to keep your home security system, light and phone charged in emergency blackout. It's a must-have emergency supply. It's also a reliable backup power battery for your office devices such as router, laptop and etc.

What devices are compatible with Hiluckey solar power bank?
