

How do I charge the solar power bank?

To charge the myCharge Solar Charger Portable Power Bank (PowerFold 8000 mAh), simply attach the charger to the docking case shell and place the expanded solar panels in direct sunlight. The case also features a button clasp to keep the solar wallet securely closed when not recharging.

How many charges can the solar power bank hold?

The solar power bank holds up to five charges, ensuring you won't end up with any dead devices, no matter where you are. Its solar panels let you charge it up with some sunlight or with a USB-C chord - whichever option is most convenient. There's a good reason it's considered the top solar power bank on the market.

What is a portable power bank charger?

A portable charger power bank, such as the myCharge Solar Charger Portable Power Bank - PowerFold 8000 mAh, features fold-out solar panels and is designed to recharge your cell phone and USB devices in the wild and while camping. (See images and packaging for charging requirements and instructions.)

Are solar power banks a good idea?

Solar power banks are awesome as they are environmentally-friendly and can maintain their charge without any electricity. Having a solar power bank means being able to charge all your electronics anywhere, any time. Sunlight is all you need to charge your gear on the go.

Are solar power banks good for hiking?

Solar power banks, like the ones mentioned in the article, are great for hiking as they provide a lightweight and portable option to keep your devices charged. While the solar panel is not meant to be the sole source of power, it is large enough to keep you going and adds minimal weight to your camping pack.

How does a solar power bank function?

A solar power bank, such as the one featured, charges up quickly via solar energy or with two different USB cables. It offers versatility by providing multiple charging options. Additionally, it serves as a large, super-bright LED flashlight with 3 different modes, making it ideal for avid campers or off-the-beaten-track travelers.
