

Which electric vehicles can be charged with the AeroVironment EVSE-RS-25 charging station?

Your cart is empty. The Aerovironment EVSE-RS-25 electric vehicle charging station (EVSE) charges all SAE J1772-compliant vehicles- including both electric vehicle (EV) models like the Nissan LEAF or BMW i3, and plug-in hybrid (PHEV) models like the Chevy Volt or Ford Fusion Energi.

What is the best EV charging station for AeroVironment?

Webasto (formerly AeroVironment) TurboDX EV Charging Station 240V 32Amp Call for Project Pricing and Assistance
Webasto (formerly AeroVironment) TurboCord Portable EV Charger - 240V Call for Project Pricing and Assistance
Webasto (formerly AeroVironment) TurboCord Dual Portable EV Charger - 120/240V Call for Project Pricing and Assistance

Where can I charge my electric car?

Both level 2 stations and level 3 (DCFC) stations are equipped with a SAE J1772 connector. Drivers can charge their electric vehicles at level 2 or fast charging stations mainly in Washington, Oregon, and Hawaii. To find out where all of them are, as well as any other charging station in North America, check out the ChargeHub charging station map.

Does AeroVironment offer EV solutions?

Although AeroVironment is mostly known for its development of solar-powered vehicles, this company also has its own network (EV Solutions) and is a large supplier of charging stations for residential and commercial purposes. These services are offered through its network EV Solutions.

How much does AeroVironment cost?

When you become a member AeroVironment offers you a keychain, gaining you access to charging stations throughout the West Coast Electric Highway for a limited time (located on the boarder of the Pacific Ocean in Washington and Oregon). This costs \$19.99 (USD)/month, giving you unlimited access to all the charging stations across the highway.

What services does AeroVironment offer?

These services are offered through its network EV Solutions. With more than 30 years of experience in the electric car industry, AeroVironment implements the Posicharge(TM) technology to rapidly charge electric vehicles. Its charging stations are also made "smart", and features technologies such as Active Cooling and Auto Watering.
