

How does solar power work on an Airstream?

Generated by panels mounted on the roof of the unit (or through a portable solar panel plugged into your Airstream's pre-wired solar connection on the hitch), solar power allows Airstreamers the freedom to roam away from the grid using sustainable energy.

How many solar panels does an Airstream have?

Airstreams come pre-wired to support up to three roof-mounted solar panels. Travel Trailers ranging from 16' to 23' get the option to add a 90W solar package (1 panel), 25' to 30' models can get 180W installed (2 panels), and top-of-the-line models like Classic and Pottery Barn come standard with 270W (3 panels) of solar power.

How much solar power does the Airstream Interstate 24 have?

Airstream Interstate 24 and Atlas Touring Coaches are delivered with 400-watts of solar panel power. There are 300W feeding power to the house batteries and a separate, dedicated 100-watt solar panel for the chassis battery. The Interstate 19 includes a 250-watts of solar on the roof.

Does Airstream use electricity?

Many of those comforts, of course, are powered by electricity. While technology has changed dramatically since 1936, when Airstream's Clipper model debuted with electric lights, electricity remains as essential to the Airstream experience as the spirit of adventure. So how do you keep the power flowing to your Silver Bullet? Three ways:

Does the Airstream Trade Wind have solar?

And like all late-model Airstream travel trailers, Trade Wind is also equipped with a hitch-mounted solar port that allows you to hook up portable suitcase-style solar panels for even more solar harvesting. The standard 3000-watt inverter in the Airstream Trade Wind is a vital component of its off-grid functionality.

Can a power inverter run AC on an Airstream?

For bigger chores -- running the air conditioning, or using appliances with motors and heating elements, for example -- you need AC (alternating current) power. Fortunately, your Airstream's power inverter can convert the batteries' DC to AC to run the AC outlets in your Airstream.

The AIR GEAR Portable Solar Kit for Airstream trailers and Basecamps adds capacity to a rooftop system or can be used as a primary solar power system. Super lightweight (19 pounds), high quality charge controller and wiring, the ...
