

Is Akon Lighting Up Africa with solar?

Rapper Akon lights up Africa with solar. Akon, the platinum-selling rapper, is lighting up Africa with solar lighting and other products thanks to a reported \$1 billion credit line with Chinese manufacturers and a skill for celebrity networking. June 6, 2017 Charles W. Thurston.

Why is Akon Lighting Africa a non-profit company?

Because of this, he established Akon Lighting Africa as a for-profit company, not a non-profit charity, and it's also why he created the Solektra Solar Academy so that Africans can learn about solar power to become self-sufficient and not require charitable donations.

What did Akon do for Africa?

In just one year, Akon's initiative was a smashing success by providing 14 African nations, including Guinea, Senegal, and Sierra Leone, with sustainable, solar-powered electricity via street lamps and solar panels.

What is Akon city?

Akon City is a 10-year project to build a futuristic city in Senegal that will be entirely powered by solar power and will use its own form of cryptocurrency, AKoin. Further, Akon City will have an airport, hotels, schools, homes, and a "billion-dollar" hospital with 5,000 beds.

What was Akon's first challenge?

In a 2018 interview with CNBC, Akon spoke on how his first challenge with the project was dealing with African governments, which are not as established, powerful, or independent as national governments on other continents.
