

Allete minnesota power community solar program

How does Minnesota Power support the C&I solar market?

Minnesota Power continues to support the C&I solar market by providing distributed generation rebates of \$0.56/kW for the first year of project operations and a \$10,000 maximum under the state's SolarSense rebate program for projects up to 20 kW of total capacity.

What is Allete's IRP plan?

The framework detailed under parent company Allete's IRP plan, called EnergyForward, dates back to early 2021. The current IRP more than doubles the amount of renewable energy to enter the state's energy mix from the prior 2021 proposal that called for 200 MW of solar and 200 MW of wind development.

How did Minnesota rank in the solar industry in Q3 2022?

In Q3 2022, Minnesota catapulted up to 15th in the Solar Energy Industry Association's (SEIA) statewide solar rankings from 29th place in 2021, with 1.7 GW of deployments through Q3 2022 and installing 111.1 MW of new projects in 2021.

Who owns Minnesota Power?

Minnesota Power, owned by Allete, provides electric services to more than 145,000 customers in a 26,000 square mile territory in northeast Minnesota from north of St. Cloud to International Falls and Duluth to the east. This content is protected by copyright and may not be reused.

Minnesota Power is seeking proposals for distributed solar resources. Minnesota Power, a utility division of ALLETE Inc. is issuing a Request for Proposals (RFP) for distributed solar resources in compliance with Minnesota Statute 216B.1691 Subd. 2h defining the State of Minnesota's Distributed Solar Energy Standard (DSES).

For example, in July 2022, Minnesota Power and Great River Energy announced plans to build an approximately 150-mile transmission line from northern Minnesota to central Minnesota that will support grid reliability in the Upper Midwest. In January 2023, ALLETE and Grid United announced our intent to jointly develop the North Plains
