

Why should you choose a solar shed light?

Made with chemicals safer for human health and the environment. Manufactured on farms or in facilities that protect the rights and/or health of workers. Discover more products with sustainability features. Learn more Solar shed Lights Indoor Outdoor with 3 Heads & Remote Control.

How do solar shed lights work?

(The large solar panel in the middle is for some DIY solar shed lights I built.) Indoor lights: An indoor solar shed light is mounted inside the shed while its solar panel is mounted outside. The lights are turned on and off with a switch, pull cord, and/or remote. The lights can be turned on during the day and night.

Can a solar shed light be used outside?

Because the light fixture and the solar panel are separate, it can be used both indoors and outdoors. This solar shed light has four lighting modes you can adjust with a remote control, including a new all-day induction lighting setting for daytime use. At 1,000 lumens, the lighting level is good for most uses.

How long do solar shed lights last?

Life span: Solar lights have life spans based on how many hours they'll last before replacement is required -- usually anywhere between 30,000 and 100,000 hours. Cheaper options hover around 5,000 hours. Warranty: Look for a solar shed light with a minimum warranty of one year. Anything over that is a nice bonus.

How do you light a shed?

Lighting a shed is pretty simple, but there are a few things to consider when picking out which type of light you want: Use: You can buy lights rated for either indoor or outdoor use. Indoor lights have a cord attached that connects them to the solar panel outside (usually on the roof).

How many lumens does a solar shed light have?

At 1,000 lumens, the lighting level is good for most uses. The ability to manually adjust the solar panels means you can light your shed however you need to -- you'll have no more dark corners, as long as they're within lighting distance. It's unclear how durable or long-lasting this light is; the company doesn't share its life span.
