Who is Apex Energy Tek?

Apex Energy Tek is a company that specializes in the design and installation of residential and small-scale commercial solar. They have installed over 5,000 solar systems, EV charging stations, and roofing projects across the Northeast. Apex Energy offers the most comprehensive selection of renewable solar solutions in the region.

Where does Apex Energy operate?

Apex Energy specializes in the design and installation of residential and small-scale commercial solar. They also provide EV charging, battery backup, and roofing services. Their service area includes New York, New Jersey, Vermont, New Hampshire, Connecticut, Rhode Island, Massachusetts, and South Carolina.

Is Apex Solar a good company?

Apex Solar did an excellent job through the entire process. I am seeing substantial savings on my electric bill and now that it is spring my system is producing more electricity than I use. Great Job! When picking who we were going to work with for our residential system. It was tough to decide. However I couldn't be happier that we chose Apex.

Why did Apex start net-metering a solar bank?

Apex began net-metering their annual solar bank in the spring to limit their monthly National Grid electric bill to an \$18 meter charge. Any production loss during this period was negligible.
