

What is the ARB Fridge Freezer Power Pack?

The ARB Fridge Freezer Power Pack transforms your ARB ZERO fridge freezer into a versatile cooling solution. It's perfect for various outdoor activities like BBQs, beach trips, or boat outings, and can even serve as a backup power source at home during power outages.

What makes the new ARB fridge special?

The new ARB fridge is capable of withstanding anything Mother Nature can throw at it. Features formerly only dreamt about include a body and hinges chiseled from stainless steel, anodised aluminium latches, UV resistant trim, and clever, protected placement of electrical connections.

Can ARB fridge freezer be used as a second fridge?

Instead of storing a cooler when home, ARB's Fridge Freezer can be used as a second fridge or freezer in your home or even as a drink storage/chair for your next party. Here are a few more tips and tricks to maximize your ARB Fridge Freezer experience before heading out on your next trip.

How do ARB fridge freezers work?

In order to preserve your vehicle's battery, ARB Fridge Freezers have a built-in emergency shut off switch. Once the fridge senses that the battery has dropped below a certain point it will automatically switch off. Once voltage has been restored, the fridge will restart. There are three different battery settings; low, medium, and high.

How do I Keep my ARB fridge freezer cool?

Keep the temperature lower when driving and increase it to a more economical temperature when the engine is off. Choose canned beverages over bottles. Cans will cool down faster and will also maximize space. In order to preserve your vehicle's battery, ARB Fridge Freezers have a built-in emergency shut off switch.

What fuses do I need for my ARB fridge?

Many are also designed to shut off when the key is in the off position. In order to ensure optimal performance, the ARB Fridge Wiring Kit is highly recommended. This kit includes 20ft of 10AWG wiring with a built in 15A fuse. This kit also includes a dedicated threaded socket which keeps the cord from coming loose when off-road.
