

Is Arcadia a scam?

Arcadia is not a scam-- we're the nation's leading community solar subscription manager and we're proud to operate in New Jersey as a registered member of NJ's clean energy program." Arcadia says door-to-door canvassing is "a critical part of our effort to educate interested Township residents about our local community solar farm program."

Is Arcadia a solar power company?

Arcadia (formerly Arcadia Power) is not a power company or energy supplier, as it doesn't generate or sell electricity. Instead, Arcadia connects you to local solar farms and applies credits from those farms to lower your utility bill. Arcadia assigns you a share of a nearby solar farm's output when you sign up.

Is Arcadia Power legitimate?

After using Arcadia Power for over a year without any issues, I consider it to be a legitimate company and something worth using. If you have any interest at all in supporting renewable energy sources, signing up for Arcadia Power is an easy way to do just that.

Is Arcadia's community solar program legit?

According to company data, Arcadia's community solar program "spans across 15 states from coast to coast, connecting over 223K subscribers to active or planned solar projects." Yes, some of these may be humorous, but some do appear legit and often can fool you. Spam texts are listed in the same order that they were received.

What does Arcadia Power do?

Arcadia Power buys excess renewable energy credits (RECs) on your behalf. A REC is a piece of paper that is created every time clean energy is generated. In some US States, such as Texas, the amount of wind energy that has been installed greatly exceeds the mandated state requirement.

Does Arcadia Power buy RECs?

When you become an Arcadia Power customer, Arcadia Power will buy RECs on your behalf. This means that your electricity will be attributable to renewable energy sources. You do not need to change your current electricity provider.
