

Who is Arcadia Power?

Arcadia Power is one of the largest community solar companies in the US. They aim to help Americans who can't install solar panels directly on their homes to benefit from renewable energy through community solar projects.

Is Arcadia a solar power company?

Arcadia (formerly Arcadia Power) is not a power company or energy supplier, as it doesn't generate or sell electricity. Instead, Arcadia connects you to local solar farms and applies credits from those farms to lower your utility bill. Arcadia assigns you a share of a nearby solar farm's output when you sign up.

How does the Arcadia Power Community Solar Program work?

Each customer purchases or rents a portion of the solar array sufficient to meet their monthly or annual electric demand. The Arcadia Power community solar program guarantees a reduced energy bill, requires no long-term commitment, and integrates with utility billing systems so you only pay a single bill per month.

Does Arcadia Power pay for solar panels?

Arcadia Power does not pay for solar panels. Instead, it offers community solar subscriptions. Participating utilities buy solar energy from Arcadia, which sells subscriptions to consumers and buys energy from solar farms. In some states, consumers pay Arcadia, which then pays the utility and the farm on their behalf.

Are low-income people eligible for Arcadia solar?

Arcadia Power's community solar program offers benefits to a wide range of customers. In some states, low-income individuals may qualify for even better rates. The most tangible benefit for most Arcadia subscribers comes in the form of guaranteed savings on their utility costs without having to sacrifice a stable energy source or set up an expensive solar system on a residence. It's also a way to support more renewable energy.

Should I join Arcadia solar?

If you live in one of the states where community solar is offered, joining Arcadia can be a good way to support clean energy while saving a little money each month. However, it's worth shopping around to see if other community solar providers in your area might offer better savings.

If you're looking to go solar in Phoenix, Las Vegas or other parts of the Southwest, reach out for advice from our experts. 877-787-0607. Contact Us; Knowledge; Schedule Service; Select Page. CONTACT US. the answer to ...
