

Who is Arcadia Power?

Arcadia Power is one of the largest community solar companies in the US. They aim to help Americans who can't install solar panels directly on their homes to benefit from renewable energy through community solar projects.

Does Arcadia offer solar power?

Yes, Arcadia runs community solar programs in partnership with utilities in 13 states and Washington, D.C. Is Arcadia Power free? No, it works in conjunction with local utilities and may offer savings on monthly power bills.

How does Arcadia's community solar program benefit the grid?

Today Arcadia's primary offering for consumers is participation in its community solar program. This is a simple way for anyone with a utility bill to save a little money and support both renewable energy and a more resilient grid.

How do I sign up for Arcadia solar?

To sign up for Arcadia's community solar program, first check if your local utility participates by visiting their website. If it does, you can either enter your utility account number or online credentials to sign up with Arcadia.

Are low-income people eligible for Arcadia solar?

Arcadia Power's community solar program offers benefits to a wide range of customers. In some states, low-income individuals may qualify for even better rates. The most tangible benefit for most Arcadia subscribers comes in the form of guaranteed savings on their utility costs without having to sacrifice a stable energy source or set up an expensive solar system on a residence. It's also a way to support more renewable energy.
