

Why do solar companies go bankrupt?

Lower sales due to higher solar financing costs are making it harder for installers to stay afloat and resulting in solar company bankruptcies. The solar industry, once dominated by a few key players, has seen a surge in new entrants in recent years, leading to solar company bankruptcies.

Did SunPower go bankrupt?

SunPower wasn't alone in going bankrupt. Several other bankrupt solar companies made headlines in 2024. In January, ADT got out of the solar business. Titan Solar ceased operations in June. Lumio, another large national installer, declared bankruptcy in September.

What should I do if a solar company goes bankrupt?

If you feel the bankrupt solar company has deceived you or committed fraud, contact a lawyer who specializes in energy law or reach out to a nonprofit legal service for help. What Happens to Warranties After Solar Bankruptcies?

Will there be more solar bankruptcies this year?

Analysts are predicting even more solar bankruptcies this year as high interest rates and changing policies about how much people can get compensated for their solar power dampen consumer enthusiasm. Wood Mackenzie says that residential installations will shrink by about 14% this year. Read more: [The Solar Power Industry Is in Trouble](#)
