

# Are there any government rebates on solar power

Is a solar battery rebate a good idea?

The federal government just announced a massive battery rebate, and it might be the biggest thing to hit the solar industry in over a decade. If you're a homeowner or business owner thinking about going solar or adding a battery, this rebate changes everything. If it goes into effect. It can save you thousands of dollars. But there are rules.

What is a solar rebate or subsidy?

A solar rebate or subsidy covers part or all of the upfront cost of buying solar or a battery. Rebate schemes operated by states, territories, and local governments may have specific eligibility criteria based on the type of housing or the people applying.

Are solar rebates available everywhere?

Solar rebates directly lower what you pay for solar, but they're not available everywhere. Many previous solar rebate programs have reached maximum capacity or are being phased out. Some rebate programs now require adding a battery to your solar installation.

Does the federal government have a rebate on home batteries?

It's one of the only times the federal government has made a big, bold move on home batteries. Whether you're looking for energy independence, blackout protection, or just a better return on your solar setup, this rebate can get you there faster. But only if you move smart. We're here to help you do just that.

How does a solar rebate work?

You'll simply sign the installation contract, and your installer will subtract the rebate amount from your total cost. There are many different brands to choose from when it comes to solar panels, inverters, and batteries. To make their equipment stand out, some companies offer rebates or other promotions.

How do I get a solar rebate?

There are many different brands to choose from when it comes to solar panels, inverters, and batteries. To make their equipment stand out, some companies offer rebates or other promotions. Getting these types of rebates is usually simple—you can often apply directly through the company's website.
