Why is my Arris modem light blinking orange?

If it works, the splitter could be defective and you should consider replacing it. If your Arris modem US/DS light is blinking orange, it means there is a disconnect in the US communication line even though the DS has seen and locked down the downstream signal. To solve this issue, you will need to recheck all your cable wiring for any defects.

What are the tg862 indicator lights?

Indicator Lights for the TG862 The Touchstone Telephony Gateway has ten LED indicator lights to assist in troubleshooting. Wiring Problems If the Telephony Gateway begins flashing all its lights for more than 10 seconds, this indicates a problem with the telephone wiring ?? the red and green wires may be

Why is my Arris DS not going solid?

We have several Arris modems and the DS blinking and not going solid indicates that the DS channel hasn't locked on. Try rebooting the modem, but if it doesn't lock on, it's time to call the ISP about it.
