

Who is Aspen Power Partners?

Aspen Power Partners (Aspen) is a comprehensive distributed generation platform with the dual mission of accelerating and democratizing decarbonization. The firm develops, constructs and operates community, multifamily, and C&I solar and storage installations enabling consumers and businesses of all income levels to access clean renewable energy.

Who are Aspen Power?

Aspen Power is a distributed energy generation platform with the dual mission of accelerating and democratizing decarbonization. We are Aspen Power. Our team is a diverse group of professionals with backgrounds ranging from investment banking to engineering - all dedicated to accelerating the deployment of distributed solar and storage solutions.

Who are the owners of the solar farm in Aspen?

The solar farm is a joint undertaking by the Aspen Consolidated Sanitation District, which owns the 35-acre parcel, Holy Cross, which has pledged to make 100% of the energy it provides renewable by 2030, and Oakland-based Primergy Solar. Primergy Solar built the solar farm with investor funds and has signed a 25-year deal to operate it.

Does Aspen Power offer a long-term lease?

Aspen Power provides landowners and businesses with guaranteed, long-term lease payments to develop solar projects on underutilized land and rooftops. This can be a straightforward and effective way to secure income while making use of space that would otherwise go unused. Contact us today to learn more about hosting a solar project.

How can Aspen Power help your business?

Aspen Power handles the details and works with all types of businesses to arrange the ideal solution. Lastly - if your business' energy needs vary, adding battery storage to a solar project can even out supply and allow you to take advantage of available incentives.
