

How will solar power Impact Austin Energy?

Solar produces power when generation is needed the most. Combined with the utility's other renewable energy contracts, these resources move Austin Energy closer to 100% carbon-free electric generation by 2035 and to supplying 65% of customer energy needs with renewable energy by 2027.

Is Austin Energy a solar company?

Austin Energy, not a solar company, is the city-owned electric utility of Austin, Texas. They have issued a press release urging its customers to be wary of phone or door-to-door residential solar salespeople claiming to be utility or city employees.
