

Why choose Solax power solar inverters?

By pushing back the boundaries with what is possible in solar inverter technology, SolaX Power have been able to produce some of the most efficient solar inverters on the market today, enabling our customers to harness even more of the free, clean energy available to us from the sun. .

What do you get with Solax power?

We're pleased to say, that's what you get with SolaX Power. The SolaX range of inverters come with a 10-year warranty, and we think they're a great product for all households. We certainly know what we're talking about when it comes to the best solar energy systems in Australia, and that's why we trust SolaX.

What is the warranty period for Solax inverters in Australia?

In Australia, all CEC-approved Solax inverters come with a 5-year warranty for parts and labour from the date of installation. The Solax residential inverter range has efficiencies from 97.1% to 98.5%. Residential inverter efficiency standards are generally 95 to 98 per cent, Solax Inverters either fall into or exceed this standard.

What is a Solax 3 phase inverter?

SolaX 3-phase inverters range from a small 3kW all the way up to 150kW, which is a size suitable for a large commercial solar installation. SolaX produces a range of single-phase and 3-phase hybrid inverters or, as they call them, energy inverters. These can be used with compatible batteries, such as ones made by SolaX

Where are Solax inverters manufactured?

Solax Inverters are manufactured in China.

What is the Solax X1-MINI G3 solar inverter?

The Solax X1-MINI G3 is a range of solar inverters designed for customers with small requirements or limited roof space. The inverters range from 0.6kW to 3.6kW, and can be paired with up to 4.7kW of solar panels. These inverters have a maximum efficiency of 98%.
