

Azalea Solar Power Facility 7.7 MW. Address. 965 Breezy Hill Road Davisboro, GA 31018 United States. Latitude: 32.98083. Longitude:-82.59167. Year Opened: 2013. Edits. [Log In to edit this ...](#)

[Draft Environmental Impact Report Draft EIR Volume 1 - Chapters 1 to 11 \(12.01 MB\)](#) [Volume 2 - Appendices A to M \(62.54 MB\)](#) [Response to Comments Chapter 7 - Response to Comments ...](#)

The solar modules will be supplied by Georgia-based Suniva and locally based talent will be used for the construction trades. Commercial production is expected to begin in late 2013 and once ...

Global Solar Power Tracker, a Global Energy Monitor project. Report an error: Azalea Solar is an operating solar photovoltaic (PV) farm in Davisboro, Washington County, ...

Dominion Azalea Solar PV Park is a ground-mounted solar project which is spread over an area of 40 acres. The project generates 14,000MWh electricity and supplies enough clean energy ...

Dominion's total contracted solar generating portfolio consists of 364 megawatts in operation or under development in California, Connecticut, Georgia, Indiana, Tennessee and ...

\*Photo is of other Green Power EMC Solar Facility. Project Overview: Located in Toombs County, Ga. Expected to generate 40 megawatt hours of electricity annually. Offset is equivalent to 30 metric tons of ...

Dominion has acquired a 7.7 MW solar power project in Georgia from Smart Energy Capital and Jacoby Development. The project, Dominion's first generation-scale solar addition in its ...

Azalea Springs: 180-megawatt photovoltaic solar energy installation in Angelina County, Texas. Clearview: 145-megawatt solar project in Adams Township in Champaign County, Ohio. Goose Prairie: 80-megawatt solar photovoltaic ...

The draft HCP, prepared by SF Azalea, LLC, covers activities associated with the site preparation, infrastructure development, construction, and decommissioning of a 60 ...

Azalea Solar LLC has a peak capacity of 7.7 MW which is generated by Solar. The power plant was commissioned in 2014 and started energy production the same year. The current owner ...

Browse our directory of all the power plants across Georgia. View monthly power plant generation and fuel consumption, power plant locations, power plant operators, and more.

Azalea Solar Project by SF Azalea, LLC: September, 2021: 3.76 MB: Bellefield Solar Project by 50L W 8ME LLC: ... Capella Solar Energy Project by Heliogen SR1, LLC. ...

The company has purchased the Azalea solar power facility from Smart Energy Capital and Jacoby Development for an undisclosed price. The 40-acre (16.19-hectare) ...

Dominion's Azalea Solar Power Facility, near Augusta in east-central Georgia, is planned to produce approximately 7.7 MW (AC) using photovoltaic technology. Dominion will ...

**PROJECT DESCRIPTION:** The Azalea Solar Project, as proposed by SF Azalea, LLC, would develop a photovoltaic solar facility and associated infrastructure necessary to ...

Dominion Resources, Inc. acquired Azalea Solar Power Facility from Smart Energy Capital, LLC and The Jacoby Group, Inc. on March 1, 2013. Azalea Solar Power ...

The Azalea Solar project is a 10-megawatt solar photovoltaic generation facility located on an 80-acre site in Washington County, Georgia that was developed by Jacoby ...

that owns the two facilities. The two plants -- Smarr Energy Facility and Sewell Creek Energy Facility -- have an aggregate capacity of approximately 737 megawatts. The ...

The proposed Azalea Solar Project (proposed project) is a proposal by SF Azalea, LLC (project proponent) to construct and operate a photovoltaic (PV) solar facility and ...
