

What are Azuri solar home systems?

Azuri Solar Home Systems have a significant impact on customers' lives and the environment, eliminating the hazards of kerosene lamps and providing modern services for rural consumers, including lighting, radio, TV, and smartphone charging.

What is Azuri's pay-as-you-go solar power?

Azuri offers pay-as-you-go solar power, connecting rural families that are off-grid to the modern digital world. This service provides both local and international satellite content to many off-grid homes through partnerships with broadcasters Zuku and StarTimes.

Why should you choose Azuri solar?

Azuri is committed to delivering life-changing technology and services to traditionally underserved and rural off-grid households. At Azuri, we believe that every customer that installs an Azuri solar home product should be better off as a result of having taken that product. Read some of the inspiring stories below:

How does Azuri work?

Once the system is paid for, all the energy generated is free. Azuri has partnered with broadcasters Zuku and DSTV to deliver a mixture of local and international satellite content to off-grid households. Every product includes Azuri's HomeSmart technology to optimise runtime and Toughscreen technology to protect from accidental damage.

How does Azuri TV work?

AzuriTV delivers more than 60 channels of content on its 32-inch and 24-inch solar-powered televisions. Once the system is paid for, all the energy generated is free. Azuri has partnered with broadcasters Zuku and DSTV to deliver a mixture of local and international satellite content to off-grid households.
