SOLID GRAY™; backpacks are designed and manufactured in the Netherlands without the use of child labour or slavery.

What is a packable bag?

A packable bag will pack into one of its pockets or a stuff sack, which makes it unique. Though non-packable thin bags are handy, they don't save as much space as a true packable backpack. In this test, we packed the bags into various daypacks and travel backpacks to see how they fit, in addition to going off the packed size of the bags.

What is the best packable backpack?

1. Tortuga Packable Backpack The Tortuga Packable Backpack is a more structured take on a packable bag compared to other options on this list; however, it's still incredibly lightweight and packs down small enough for easy transportation.
