

Does Bahama have a solar power project?

The Bahamian government owns and manages property rooftops, parking lots and green spaces, on which solar power projects could be developed. Several projects that capitalize on that solar power potential are underway, Jones Bahamas points out.

Is solar a good option in the Bahamas?

On a kilowatt-hour (kWh) by kilowatt-hour basis, solar's your best, but you need to add battery energy storage capacity in order to reach higher levels of penetration," he noted. "Nassau's [the Bahamas' largest city] is a pretty big grid, and it can take a fair bit of solar without storage," Burgess continued.

How is the Bahamas reducing its energy monopoly?

The Bahamas has been taking steps to end the state-owned utility's energy monopoly and reduce the energy sector's carbon and environmental footprints in line with national and international greenhouse gas (GHG) emissions and climate change goals. Government leaders have earmarked \$170 million for renewable energy financing in the 2019-2020 budget.

Is the Bahamas a difficult place to generate electricity?

BPL Chairman Donovan Moxey was quoted in a Tribune Business news report. The Bahamas is a very difficult place to generate electricity, distribute it and sell it, even as compared to other Caribbean islands, Chris Burgess, Islands Energy Program projects director, told Solar Magazine.

How will the family Islands solar power system work?

Development of the four solar-fueled power systems will set the stage to scale the Family Islands solar program across the island chain's outlying islands, as well as contribute to the Bahamas achieving a national goal of renewable energy resources meeting 30% of electricity needs by 2030.

What is the islands energy program?

In addition to the Bahamas, the Islands Energy team is in the midst of assisting Caribbean island governments and utilities in five other jurisdictions craft and carry out clean, renewable energy transition: the British Virgin Islands (BVI), Belize, St. Lucia, St. Vincent and the Grenadines and Turks and Caicos. Three pillars support the program.
