

Is Bauhn powerbank a good battery?

Super satisfied with BAUHN's 27000mAh Powerbank - Reply to the previous comment, this product is indeed 27000mAh. It is obvious that this product is relatively large, with about 6 4500mAh battery cells. However, from a physics perspective, there are series and parallel connections, which is why 9000mAh is displayed.

How do I connect a USB-C power bank?

Press the power button to turn the power bank on. Connect the supplied USB-C cable or your device's cable to the relevant port and the other end to your device. If no devices are being charged, the power bank will turn off after 30 seconds. Connect the supplied USB-C cable to the USB-C port of the power bank and the other end to your power source.

Is Bauhn ALDI a deceptive power bank?

Deceptive Capacity Stated for Power bank - The power output capacity as stated on the front of the product and on the specifications on the Bauhn ALDI website is 3x higher than it actually is. On the back of the product, the supplied user guide with the product and downloadable user guide states only 9000mAh instead of 27000mAh. Totally deceptive.
