

What types of inverters does the Growatt app support?

The ShinePhone app supports all Growatt inverters, including grid-tie, off-grid, hybrid, and storage inverters. To use the app, you'll need a monitoring device that connects your inverter or datalogger to the internet, such as a Growatt Wi-Fi dongle, a Growatt Shine LAN-X dongle, or a Growatt Shine Link-X box.

How to monitor a Growatt inverter and datalogger?

To monitor your Growatt inverter and datalogger, you need a monitoring device that connects them to the internet. This can be a Growatt Wi-Fi dongle, a Growatt Shine LAN-X dongle, or a Growatt Shine Link-X box. Additionally, you need a smartphone running on iOS or Android to use the ShinePhone app, which is available for free on the App Store or Google Play Store.

What is the Growatt monitoring app?

The Growatt monitoring app is a mobile application that connects to the Growatt monitoring platform and allows you to access your inverter data anytime, anywhere. It is ready to take the next step after you've set up your myenergi devices, such as the Zappi EV Electric Vehicle Chargers and the Eddi.

How do I set up the shinephone app with my Growatt inverter?

To set up the ShinePhone app with your Growatt inverter, follow these steps: Download and install the ShinePhone app on your smartphone from the Apple App Store or Google Play Store. Register an account on the app by entering your email address and password.

What can I manage on my Growatt inverter account?

On your Growatt inverter account, you can manage multiple devices such as inverters, batteries, dataloggers, etc. You can also share your devices with other users or transfer them to other accounts.

Where can I find my Growatt inverter serial number?

To use the ShinePhone app to monitor your Growatt inverter, you'll first need to find your inverter's serial number or QR code. You can find this on the label of your device or on the web interface.
