

Best portable solar power generators for your home

What is the best portable solar generator?

After testing several models, we found that the Jackery Solar Generator 2000 Pro is the best portable solar generator. It consists of the Jackery Explorer 2000 Pro power station and the Jackery Solar Saga 200 portable solar panels.

Where can portable solar generators be used?

The best portable solar generators are used to provide power for construction sites, campers, events, or other settings where access to electricity is limited. Most solar generators are portable, lightweight, and have a built-in handle.

Are solar generators portable or backup?

Some solar generators, like the Goal Zero Yeti 3000X and 6000X, serve as both portable power sources for outdoor adventures and backup power for homes. However, not all solar generators fall into both categories.

Should I buy a solar generator or a portable solar panel?

Read Next: The Best Portable Solar Panels If the primary cause of power outages where you live are wildfires or hurricanes, or other summer events, I would recommend looking at solar generators. If the primary cause of power outages where you live are winter storms, then you will likely be better off with a larger power station.

What is the best large solar generator?

The AC200P was in a dead heat for the best large (and best overall) solar generator. It tops CNET's best list for portable power stations. Check out our list of best portable solar panels and solar batteries.

What can you use a solar generator for?

Solar generators are a perfect item to bring with you on a camping trip, or as a home backup system for running small appliances during a power outage. They convert sunlight into energy to power your devices and appliances when you don't have electricity.
