Let us know below.

How durable is the BLAVOR Solar Charger Power Bank? BLAVOR Solar Charger Power Bank 18W REVIEW [youtube.com](https://www.youtube.com) Are portable solar panel Chargers good for off-grid hiking?

Sure, battery packs and power banks are an essential piece of the puzzle. On longer off-grid hiking trips, though, they only go so far. That's where portable solar panel chargers come in. They're lightweight, durable and provide supplemental energy in the most remote locations as long as the sun's shining.

Should you put a solar charger on your backpack?

A decade ago it was more common to see backpackers with a small portable solar charger on the back of their backpacks or charging up their phone during an extended break. But today's power hungry electronics make the weight-to-power potential harder to justify.

The larger the solar panel, the faster it will charge power banks and devices. A larger surface area will also allow you to charge bigger power banks and batteries, and also charge more demanding devices. The benefit of ...
