

What are the best solar generator brands?

ALLPOWERS is another one of the best solar generator brands for those looking to save money, as its cheapest kit is priced at \$249. Our choice, the 2,000W power station is a good option for trips off-grid; it can charge 11 devices at a time and it's rated IP66, so it should survive strong water jets.

How to choose the best solar generator?

To choose the best solar generator, look for one that can simultaneously charge all your intended devices. A good portable power station should have a high output capacity to charge multiple devices, even those with high power requirements. Additionally, the generator's maximum output should be much higher than its max input.

Are solar generators a good investment?

Solar generators can be a pricey investment. Before you start looking at the various power stations and solar panels and package deals available, it's important to know how much you are willing to spend. Underspending on a power station can result in inadequate power needs in the case of a power outage or while adventuring off grid.

What are the best solar generator kits?

Here, we've rounded up the very best solar generator kits on the market today, including models from top brands like Anker, Bluetti and EcoFlow. Our picks all include solar panels as standard, so you start saving power right away. \*Stats and prices correct at time of publication
