How many solar companies are in Washington, DC? Should you choose a local or national solar installer? Make an impact.

Which solar companies are in the district of Columbia?

The District of Columbia also has other noteworthy solar installation companies, such as Nova Solar, Revolution Solar and Ipsun Solar. We recommend requesting free solar quotes from multiple solar companies before finalizing your pick for an installer. There are multiple benefits of going solar in Washington, D.C., some of which include:

Is Washington DC a good place to go solar?

Washington, DC, has great incentives for going solar. If you're looking to go green -- or save green -- in Washington, DC, you'll be happy to hear that you live in a solar-friendly place. DC's combination of federal and local tax credits and other incentives make going solar a great way to go green and save money at the same time.

What are the best Solar Lease companies in district of Columbia?

Plus, SunPower guarantees the energy output from the system you lease, which is an additional protection that other companies don't always provide. Sunrun is another big name you'll likely come across when researching solar leases in District of Columbia.

How much does solar cost in Washington DC?

The average price per watt of solar power in Washington, DC is \$3.12/W. These prices are before incentives. After the federal solar tax credit, the final cost will drop by 30%, down to \$20,266 for a 9.28 kW system. Many states even offer local rebates and incentives that lower the price further--sometimes by thousands of dollars.

How many solar panel installers are there in the district of Columbia?

The Solar Energy Industry Association says homeowners in the District of Columbia have 28 solar panel installers to choose from. Some solar companies outsource their installation process to subcontractors while others keep installation in-house, so make sure to ask about a company's installation process before hiring it for the job.
