How can I find a reliable solar installer?

To find the right solar installer for you, consider asking about the type of solar equipment they offer. Reliable solar companies will provide Tier 1, low-profile monocrystalline solar panels and at least one of the leading solar batteries, such as Tesla Powerwall, Enphase Encharge, or LG Chem. Some companies may even offer solar roof shingles.

Why should I choose a local solar installer?

SolarReviews data, from tens of thousands of reviews of solar companies, shows that local, family-owned solar companies record far higher levels of client satisfaction. This is why we recommend going with a company that's local to your area rather than a nationwide installer. How can I find solar installers near me?
