

Who is the best solar company in New York?

According to solar shoppers on the EnergySage Marketplace, the top five solar installers in New York are Infinity Energy (Infinity Solar Systems LLC), New York State Solar Farm, Alternative Power Solutions of NY, LLC, Leviathan Solar Inc, and PlugPV. How many solar companies are in New York?

Is New York a good place to install solar panels?

For instance, the New York Power Authority reports that since its inception, solar energy has grown by 3,000% in the state. With enough solar panels installed to power over 800,000 homes, New York has consistently ranked among the top 10 solar markets. New York also has a goal of reaching 5,000 megawatts (MW) of solar installations by 2026.

How do I find a solar installer in New York?

A unique challenge of finding a solar installer in New York is that most solar companies only have locations in and around New York City. Availability is extremely important for people who don't live in the city or on Long Island. Tesla scores well in this category, with more locations spread throughout the state than any other installer.

Who are the best solar installers on Long Island?

If you're looking for a local company on Long Island, I strongly recommend Empower Solar, which is the company I used myself for my solar conversion. Honorable mentions go to Venture Solar and Solanta, two local solar installers that didn't score high enough to crack the top seven.

Is solar a good investment in New York?

New York is actually one of the top states-- if not the top state, according to Governor Kathy Hochul -- for community solar. ⁶ This means you can find a solar project to help save you money on your electric bill without having to pay the high upfront cost of solar panels. Will Solar Increase Your Home Value in New York?

Who is a solar project manager in New York?

The company's technicians are local experts, and your solar project manager will help you navigate the sometimes confusing landscape of New York's solar incentive programs. Empower is the best choice for you if you want a local company that understands the unique challenges and requirements of installing solar systems in New York.
