

Who are the top solar companies in South Carolina?

According to solar shoppers on the EnergySage Marketplace, the top five solar installers in South Carolina are Olympus Home, Renu Energy Solutions, Solar Energy Partners, CAPE FEAR SOLAR SYSTEMS, LLC, and ESD Solar.

Is solar a good investment in South Carolina?

Going solar is a huge investment, especially in South Carolina where the cost of solar is a little higher. Choosing a company that has a lot of solar financing options, like Blue Raven Solar, can help ease the initial financial burden of installing solar panels.

Is South Carolina a good state to transition to solar power?

South Carolina is a great state to transition to solar power because of its abundant sunlight and numerous solar incentives. We've researched the best solar companies in the United States and narrowed down our top recommendations for the Palmetto State. See how they compare on reputation, warranty coverage, customer satisfaction, and more.

How much does solar cost in SC?

This is because SC homeowners, on average, use more energy than the typical American. If you compare solar costs on a per-watt basis, solar systems in SC cost \$3.27 per watt compared to \$3.33 per watt on the national level.

Do South Carolina homeowners install more solar panels?

It's worth considering that the average South Carolina homeowner installs more rooftop solar panels (an 11 kilowatt system) compared to the national average (9 kilowatt system). This is because SC homeowners, on average, use more energy than the typical American.

How do I choose a solar installer in South Carolina?

For solar installers in South Carolina, you especially want to look for a production warranty-- to provide peace of mind through the state's extreme weather -- as well as warranties for roof leaks, which are especially important given the high rainfall totals throughout the state.
