

Who is the best solar company in New Hampshire?

Other notable solar companies in New Hampshire include ReVision Energy, Granite State Solar and AllEnergy Solar. Ultimately, the best solar company for you will depend on your location, energy needs and budget. When making the final decision, we recommend requesting free quotes from multiple installers to compare your options.

Does New Hampshire have solar?

New Hampshire's snowy climate and limited solar policies have slowed its growth of solar -- the state ranks 41st in the nation for installed solar capacity. However, residents can still enjoy numerous benefits by installing solar power with the best solar companies in New Hampshire, including Sunrun, Venture Solar and SunPower.

Do utility companies offer solar credits in New Hampshire?

Utility companies in New Hampshire offer solar credits through net metering programs. The New Hampshire Public Utilities Commission (PUC) mandates net metering for most utility companies throughout the state. Customers earn utility bill credits for selling their excess energy to the power grid. However, payout rates and program guidelines vary among companies.

Are solar batteries a good choice in New Hampshire?

In New Hampshire, solar batteries are a popular choice due to above-average energy prices and the increasing prevalence of EV chargers. Companies that offer a variety of services are more likely to meet local needs and provide a solution for energy efficiency upgrades, including solar batteries.

What is New Hampshire's solar reviews team?

Our Reviews Team is committed to delivering honest, objective, and independent reviews on home products and services related to solar energy in New Hampshire. Despite having one of the nation's smaller solar markets, New Hampshire is dedicated to expanding its renewable energy potential and aims to generate at least 25.5% of its electricity from clean energy by 2025.
