Everyone should unlock the Prototype mission first since it will let you create a full set of 340/336 blue gear, and you can get a piece of 340/336 purple from doing Nefra NiM or the next PvP weekly, respectively. Path 2 ...

But right now, I need to power level one of my villain characters from CR 210 up to the current End Game level of CR 276 or above. And I need to be able to do it solo if at all possible. Can anyone give me some advice as to the best and fastest method by which a solo player can power level a character to current End Game? Thanks in advance.

I found Red Reaper to be about 5 minutes longer than Athiss. So I solo'd Athiss numerous times to get a bunch of blue 324 earpieces I would deconstruct into FP-1s. This year, trying to get the 340 gear on both my alt account, and the other server was a lot easier. Both was able to accomplish within a single evening after hitting level 80.

The Barbarian class requires significant item farming and understanding of hidden mechanics, making it a less beginner-friendly choice for solo play. Builds like Whirlwind (WW), Frenzy, and Concentrate (Conc) are available but require serious item investment to achieve a solo Hell playthrough. Best Path to 99 (Solo Power Level strategy) Level 1-15:

Tips to reach the soft cap as fast as possible: Again, everything works at this stage. All you need to do is grind and play a lot. Only Powerful and Pinnacle sources will help you progress towards the Powerful cap. Both ...

Good post and Hyde and Zeek are definitely the quickest way to 340. Once you get to 340 I would recommend these: A. Join groups for nightmare nefra and Dash"roode runs. As long as you know your class these are pretty painless unless you get a bad group or are a ...
