The solar generator models that this app supports are the 1400 Lithium, 3000 Lithium, 1000X, 1500X, 3000X, and 6000X. The Yeti App allows you to turn on and off ports with a WiFi connection, measure your past usage with your generator, and toggle power metrics, all via your smartphone.

What are the best solar generators?

With so many quality Power Stations on the market, choosing the best option can be rather difficult. Today we will be comparing the three most popular solar generators: The Goal Zero Yeti X Line of Solar Generators, The increasingly popular EcoFlow Delta 1300 and finally the Nature's Generator Standard and Elite.

Is the Yeti 3000X a good solar generator?

The 3000X is a massive solar generator. It is heavy and bulky for certain events. But if you're using it for the following events, it will be a very useful tool on deck. Although the Yeti 3000X is heavy, its two handles and roll cart make it relatively maneuverable.

What is the best solar generator for home backup?

The Goal Zero Yeti 6000X is the best solar generator for home backup. It packs a bigger battery than any other portable power station we've seen - a whopping 6000Wh capacity - and the 2000W AC inverter can power any appliance in your home.

Is the Yeti 6000x a good generator?

Instead, it's portable in the sense that you can wheel it around your home on the included roller cart. The Yeti 6000X is also a great choice for RVs and boats that want an alternative to noisy and polluting gas generators. And if you spend a lot of time in an off-grid cabin, the Yeti 6000X is an excellent source of off-grid power.

Is the Goal Zero Yeti 6000x a good inverter?

The Goal Zero Yeti 6000X has a decent 2,000w inverter, but its solar input is quite lacking. It has a max solar input of only 600w, which means it will take over 10 hours to charge from the sun.
