

How much do solar panels cost on Black Friday?

If you're looking to pick up one or more high-power solar panels to complement your power station, this Black Friday deal almost allows you to get two for the price of one. A quality 400W solar panel will cost you well over \$1,000, but this Black Friday deal slashes the price by \$500.

Are solar generators cheap on Black Friday?

Solar generators aren't cheap, but they typically experience huge discounts on Black Friday. This year, the deals are particularly outrageous, dropping prices lower than we've seen this year--and some of these are the lowest prices ever.
