

What is Bungala solar project?

Bungala Solar Project is a 275.4MW solar PV power project. It is located in South Australia,Australia. According to GlobalData,who tracks and profiles over 170,000 power plants worldwide,the project is currently active. It has been developed in multiple phases. Post completion of construction,the project got commissioned in May 2018.

Is Bungala the biggest solar power plant in Australia?

Although it is currently the largest completed solar power plant in Australia to date,Bungala will soon be overtaken by other big projects in the development pipeline,such as innogy's 349 MWp Limondale Solar Farm and Maoneng's the 255 MWp Sunraysia Solar Farm in New South Wales,Total Eren's 256.5 MWp Kiamal Solar Farm in Victoria.

Where is Bungala solar farm located?

The 275 MW Bungala Solar Farm (1 and 2) is located approximately 15 km northeast of Port Augusta in South Australia. The Solar Farm comprises of approximately 840,000 photovoltaic (PV) modules and related civil and electrical infrastructure. The Solar Farm produces approximately 570 GWh,powering over 113,000 South Australian homes each year.

How much energy does the Bungala solar farm produce?

The Solar Farm produces approximately 570 GWh,powering over 113,000 South Australian homes each year. The relevant Development Approvals for the Bungala Solar Farm have been obtained from the South Australian Government in 2016. The Approvals set out conditions that must be complied with in undertaking the development.

How many solar panels will the Bungala project power?

The two plants,covering 600 hectares of land and consisting of about 800,000 solar panels,bring the Bungala project to an operating capacity of 220 MW,with the potential to power more than 95,000 homes.

Who owns Bungala solar?

The entire Bungala project is owned by Italian power utility Enel,through its subsidiary Enel Green Power,and the Dutch Infrastructure Fund,which together invested US\$157 million (\$218 million) to acquire the first phase of the project from Bungala Solar Holding Pty Ltd.,a subsidiary of Australian developer Reach Solar Energy.
