

What makes CALB a great battery company?

Renowned for innovations like U-structure and solid-state technologies, CALB serves global automotive and industrial clients through a strong focus on R&D and manufacturing excellence. CALB Group Co., Ltd., formerly China Aviation Lithium Battery, stands as one of China's principal manufacturers of lithium-ion batteries.

How did CALB perform in the Asia-Pacific market?

In the Asia-Pacific market, CALB also performed quite well: we achieved the first place in power battery shipments in India, supplied exclusively to the leading power battery companies in India, and targeted public power backup projects in Japan.

Who makes lithium ion batteries?

CALB Group Co., Ltd., formerly China Aviation Lithium Battery, stands as one of China's principal manufacturers of lithium-ion batteries. Founded in 2007, the company specializes in developing and producing advanced battery solutions for electric vehicles and energy storage systems.

What does CALB Group Co., Ltd do?

CALB is a vanguard of global innovation in new energy technology. We are dedicated to pioneering the future of energy value creation, aiming to build a comprehensive energy operation system, and deliver comprehensive product solutions and extensive lifecycle management for sectors including power generation and energy storage.

What is CALB's battery cell production capacity roadmap?

Here is CALB's battery cell production capacity roadmap. Notice that 200 GWh represents 4 million battery packs with 50 kWh each. Regarding energy density, during current year CALB expects to reach 225-240 Wh/kg at the battery pack level, enabling electric cars to achieve a NEDC range of 800-1,000 km (around 600-750 km in WLTP).

Who signed the agreement of CALB European lithium battery factory construction project?

At the event, Mr. Liu Junling, General Manager of the Overseas Business Division of CALB, signed the agreement of CALB European Lithium Battery Factory Construction Project with Drees & Sommer on behalf of CALB. CALB Europe project is planned to build power battery capacity of 20 GWh+.

CALB Group Co., Ltd., formerly China Aviation Lithium Battery, stands as one of China's principal manufacturers of lithium-ion batteries. Founded in 2007, the company specializes in developing and producing advanced ...

China's CALB, one of the world's largest battery makers for electric vehicles, said on Friday it would invest 2 billion euros (USD 2.09 billion) in a gigafactory in Portugal that is ...

China Aviation Lithium Battery (), a prominent global manufacturer of lithium-ion batteries, is set to invest approximately US\$2.09 billion (≈1.72 billion) in a new electric vehicle (EV) battery production facility in Sines, ...
